

Honeywell®

1400g Voyager, 2D, USB, with stand, black

Voyager 1400g delivers omnidirectional reading of linear, PDF and 2D barcode.

An exceptional value, Voyager 1400g offers:

- Scanning of linear codes at speeds comparable to laser-based scanners
- Omnidirectional reading of virtually all linear, PDF417 and the most widely used 2D bar codes
- Ability to read traditional paper-based bar codes and codes on mobile phone screens

Offers omnidirectional reading of virtually all linear bar codes and the most widely used 2D bar codes, including poor quality and mobile bar codes

Technical Description

Functionality & Operation

1D Barcode Symbolologies	All standard one-dimension barcodes
2D Code Symbolologies	PDF417, all standard 2D-Codes
Communication interface	IBM-46xx, keyboard, RS232, USB

Optical

Bar code scanner	2D Imager
------------------	-----------

Mechanical

Dimensions	Width: 43mm, Height: 66mm Length: 180mm
Weight	119g

Environment

Operating temperature	0 to 42°C
Storage temperature	-40 to 60°C
Relative humidity (non-condensing)	0 to 95%
Ingress protection	IP42

Others

Warranty	5 years
