

Honeywell®

Mobile computer EDA5S (SLIM), Android, WLAN, WWAN, GMS, 3GB/32GB, USB-C, camera, NFC, IP67

The Honeywell ScanPal EDA5S is an enterprise-class mobile computer that provides reliable and secure connectivity between frontline workers and backend business systems. It is designed for rugged use in transportation & logistics and healthcare applications. Unlike conventional devices, EDA5S is slimmer, lighter and complete with a sleek and stylish finish. This makes it more suitable for customer-facing luxury and fashion retail markets.

The Honeywell Android mobile computer ScanPal EDA5S is equipped with a 2 GHz Qualcomm Snapdragon octa-core processor, a 5.45" touchscreen with Gorilla Glass and a 3,060 mAh lithium-ion battery. Via the interfaces NFC, Wi-Fi 5, Bluetooth 5.0 and 4G LTE, it ensures reliable connectivity between workers in the front- and back-end systems in retail, transportation and logistics. Plus, its industrial design with IP67 certification significantly improves user comfort and user experience.

Key features:

- very slim, light and elegant body
- rugged design with IP67
- fast and accurate reading of even damaged barcodes
- removable battery
- powerful octa-core processor
- large 5.5" touch screen
