![CODEWARE® - no more searching]

Handheld & fixed 1D/2D barcode scanner setup

1D & 2D scanner settings for all of the types of CODEWARE sold barcode scanners - caled, wireless, pocket, POS scanners, fixed ones

The offered service package includes:

- setting parameters for reading barcodes
- suffix prefix settings
- other settings according to the customer's wishes
- create a configuration file, procedure, or setup card, if your device allows it

We provide the service remotely via the Internet and at the customer's workplace (with a surcharge for a service trip).
