

BarTender basics training (creating a template, connecting printers, connecting to a data source in xls, txt, access)

- BarTender has to be already installed - demonstration of functions according to the customer's wishes - remotely and at the customer workplace (surcharge for transportation) - (1 hour of service)

Do you also hate that, when you buy something, you have to fight for few days with unexpected troubles and set-up difficulties after unpacking? We do, so we have prepared a price-advantaged package of the most commonly ordered services after purchasing specific goods. You deserve the purchased product put into operation someone who had already in his hands hundreds of equal devices. The saved time you can devote to your professional work.
