

## Additional 2nd-5th printer set-up to BarTender (drivers, calibration, print test)

- remotely or at the customer side (surcharge for transportation) - assumed that BarTender is already installed - if the printer does not connect to BarTender, it can be a standard printer installation

Do you also hate that, when you buy something, you have to fight for few days with unexpected troubles and set-up difficulties after unpacking? We do, so we have prepared a price-advantaged package of the most commonly ordered services after purchasing specific goods. You deserve the purchased product put into operation someone who had already in his hands hundreds of equal devices. The saved time you can devote to your professional work.
