

Prophylaxis of one industrial label printer

Preventive inspection of the equipment, it usually involves complete cleaning, adjustment and inspection of the printer. Regular maintenance of the printer will extend its life.

We can provide the offered service:

- in CODEWARE (the customer sends the printer, postage is not included in the price of the service) - preferred way, because we have the technical background here and if necessary, we can replace the defective part immediately
- at the customer site (surcharge for the transportation)

It takes two hours to provide the service.
