Thermal Receipt Printer TM-T20III, black, USB+serial

Epson's cost-effective, energy-efficient TM-T20III thermal printer is ideal for low-volume retailers, food service and virtual terminal applications. It combines basic POS printing functionality with high reliability and ease-of-use features.

This easy-to-use model is our entry-level POS receipt printer and has an 80mm printing width. Its Automatic Paper Reduction feature reduces top and bottom margins, line feed width and barcode height, allowing for flexible receipt printing. This monitors and controls the amount of paper used. Paper costs are minimised by printing the top logo of the next receipt before cutting, so the top margin is further reduced by 12mm.

With the mean time between failures (MTBF) of 360,000 hours and a mechanism life of 15 million lines, you can rely on the TM-T20III in high-volume printing environments.

Key features:

- Automatic paper reduction function
- Mechanism life of 15 million lines
- Print speed of 250mm/sec
- Mechanism life of 15 million lines

Technical Description

Functionality & Operation

Communication interface	RS232, USB
Print mode	direct thermal
Print speed	250mm/sec
Print resolution	203dpi
Fonts	ANK

Electrical

Power Source	24 VDC

Mechanical

Dimensions	Width: 140mm, Height: 146mm Length: 199mm
Weight	1.7kg
Color	black

Consumables

Media type	roll of thermal paper

Others

Warranty	2 years
