

HUR-120 UHF RFID reader, Bluetooth

HUR 120 USB is a UHF RFID handheld reader that allows the easiest way of integration of UHF RFID technology into everyday use. Through Bluetooth it is possible to communicate with a tablet, smartphone or PC.

HUR 120 BT is designed to read and write to EPC Class 1 Gen 2 (ISO18000-6C) UHF transponders and communicate with a variety of host devices via Bluetooth® wireless technology. With this reader you can work for more than 3 days straight without the need to charge it. All this is possible thanks to a unique UHF RFID mURM module. The HUR 120 BT is great solution for short range applications.

Key featured:

- Bluethooth Communication
- EPC C1 G2, ISO 18000-6C Compliant
- EPC Gen2 v2.0 READY!
- Built-in push button
- Integrated circular polarized antenna
- Win 7, Win 8, Win 10, Android, iOS
- default USB-VCP, USB-HID must be entered in the ordering requirements

Technical Description

Functionality & Operation

Operating temperature

Antennas, Antenna inputs integrated RFID antenna circular polarized Communication interface Bluetooth, USB-VCP, USB-HID, micro USB Frequency UHF: 865 - 868 MHz (EU) Optical Scanning rate 50 tags/s Electrical Main battery pack Rechargeable Li-Ion battery 2000 mAh Mechanical Weight 270g Dimensions Width: 86mm, Height: 45mm Length: 180mm **Environment**

-20 to 55°C
