

## Printronix T8304 ODV-2D Industrial Bar Code Printer with 2D verificator, Peeler, 300 dpi, 12 ips

The T8000 is the premier high-end thermal printer. With unmatched industrial performance, easy to use, and 100% verifiable output, the T8000 exceeds the requirements of the most demanding mission critical manufacturing and distribution operations.

## **Key features:**

- Full metal enclosure with large side window for better viewing of supply status
- Reliable performance in sub-zero environments without a heated enclosure
- Seamless connectivity of PostScript/PDF files supports the latest ERP systems
- PrintNet Enterprise™ remote printer management to monitor printers and virtual control panel to configure from anywhere in the world
- Energy Star compliant

Eliminate expensive compliance fees by producing 100% accurate barcodes, 100% of the time.

The ODV is the industry's first affordable, fully integrated solution with the ability to print and validate 1D and 2D barcodes. Built on the robust T8000 printer platform, ODV includes a built-in data validator that grades barcodes to ISO standards and stores a detailed report of each transaction. Exclusive technology reads each barcode, overstrikes the entire label of a rejected barcode, and reprints a new label. Advanced features allow it to integrate easily and quickly into existing applications. Model with peeler.

## Why order Printronix printers with built-in barcode validator from CODEWARE

- you will receive an assembled set from us, a printer with an already mounted and connected validator (other stores sell this product as a set, i.e. the customer receives 2 boxes with installation and connection instructions)
- as an optional item, we offer validator calibration, which is performed directly at the place where the printer is used (the calibrated device should not be moved, let alone be transported by a delivery service!)

## **Technical Description**

Warranty

2 years

Functionality & Operation		
Print speed	12ips	
Print resolution	300dpi	
Graphics	PCX, BMP , PNG, TIFF	
Fonts	Inteliffont, TrueType, Unicode, OCRA, OCRB, Courier, Letter Gothic, CG Times, CG Triumvirate/Bold/Condensed	
Display type	3.4" full color LCD	
Maximal print width	104mm	
Print mode	direct thermal, thermal-transfer	
Expansion slot	SD Card	
CPU Type	ARM Cortex-A9	
Memory	512MB RAM, 128MB Flash	
Communication interface	RS232, USB, Ethernet	
2D Code Symbologies	PDF417, MicroPDF417, MaxiCode, Data Matrix, QR code, Aztec, GS1 DataBar Composite Code	
1D Barcode Symbologies	Code 11, Code 39, Code 93, Codabar, Code 128 subset A.B.C., Industrial 2 of 5, Interleaved 2 of 5, EAN 8, EAN 13, UCC/EAN-128, UPCA, UPCE, MSI, Matrix 2 of 5, Postnet, Plessey, FIM, Telepen, Logmars , BC-412, Code35, UPCSHIP, UPS11, 4-state PostBar, Australian 4-state, ITF14, PLANET, USPS Intelligent Mail	
Electrical		
Power Source	Line Input - Auto Range 90 - 264 VAC (48 - 62 Hz)	
Mechanical		
Body housing	metal, sheet metal	
Color	black	
Dimensions	Width: 297.2mm, Height: 330.2mm Length: 520.7mm	
Weight	16.7kg	
Consumables		
Max. ribbon length	625m	
Ribbon width	25.4 to 114.3mm	
Media core diameter	37.5 to 76mm	
Maximal roll diameter	209mm	
Maximal paper width	114.3mm	
Minimal paper width	25.4mm	
Media type	fan-fold, Roll-feed, tickets, tags, paper and thermal-paper labels, continuous	
Environment		
Storage temperature	-5 to 60°C	
Storage humidity (non-condensing)	5 to 85%	
Operating humidity (non-condensing)	20 to 85%	
Operating temperature	-5 to 40°C DT, 5 - 40°C TT	
Others		
Bundled Accessories	peeler
