# RFID Silverline label micro M4i, 45mm x 13mm, PET, 800 et/kot

This small but powerful RFID label that can, in many cases, replace a hard RFID tag. Ideal for applications on which the suitable label size is particularly limited, for example applications involving different kinds of IT and enterprise assets, valuable items or tools. The label can also be attached on curved surfaces like liquid bottles and metallic cylinders without affecting its performance.

The Confidex Silverline family is designed and verified to work with the Zebra ZT410 RFID Silverline printer. Other Zebra printers are not recommended or supported.
